# HS-40 COMPACT BUBBLER

## The Real Cost of a Bubblers

*HS40 Compact Bubbler with Powder Coated Metal Enclosure*

The use of Desiccant in Bubblers is extremely common in the industry, however, the cost associated with this is rarely mentioned or taken into account when purchasing a Bubbler. Our engineers have really led the charge in Bubbler Sensing System technology and innovation.

The HS40 AFC Compact is a Desiccant Free Constant Bubbler with industrial grade compressor, integrated Dual Stage Air Drying System and Push Button LCD for easy set-up. Welcome to the next generation in Bubbler Sensing Technology!
